2. Admission to study under basic higher education programs and specialized higher education master's programs provided for by Decree of the Government of the Russian Federation No. 1302 of 9 August 2023 "On the implementation of a pilot project aimed at changing the levels of professional education" (hereinafter – Decree No. 1302) shall be carried out in accordance with the provisions of the Rules established for admission to study under bachelor's programs, specialist programs and master's programs, respectively.

3. The University announces and conducts admission to study on the basis of a license for educational activities, series 90L01 No. 0009701, registration number 2624 of 07 August 2017, issued by the Federal Service for Supervision in Education and Science.

4. Admission to study is carried out for the first year.

5. Admission to study is carried out:

– under bachelor's programs and specialist programs – for applicants with secondary general education, or secondary vocational education, or higher education;

– under master's programs – for applicants with higher education.

The possession of education is confirmed by documents on education or on education and qualifications issued to persons who have successfully passed the state final assessment or final assessment (hereinafter – documents on education).

6. Applicants must have:

1. for admission to study under educational programs that have state accreditation – education confirmed by documents on education issued to persons who have successfully passed the state final assessment:

– a document on education of the form established by the federal executive body responsible for developing state policy and legal regulation in the field of general education, or by the federal executive body responsible for developing state policy and legal regulation in the field of higher education, or by the federal executive body responsible for developing state policy and legal regulation in the field of healthcare, or by the federal executive body responsible for developing state policy and legal regulation in the field of culture;

– a state-issued document on the level of education or on the level of education and qualifications obtained before 1 January 2014 (a document on primary vocational education confirming the receipt of secondary (complete) general education, and a document on primary vocational education obtained on the basis of secondary (complete) general education, are equated to a document on secondary vocational education and qualifications);

– a document on education of the form established by the Federal State Budgetary Educational Institution of Higher Education "Lomonosov Moscow State University", the Federal State Budgetary Educational Institution of Higher Education "Saint Petersburg State University", a document on education and qualifications of the form established by decision of the Academic Council, if the said document was issued to a person who has successfully passed the state final assessment;

– a document on education issued by a private organization engaged in educational activities in the territory of the Skolkovo Innovation Center, or by an organization engaged in educational activities in the territory of an innovative scientific and technological center;

– a document (documents) on education obtained in a foreign state, if the education specified therein is recognized in the Russian Federation at the level of the corresponding education (hereinafter – a foreign state document on education);

2. for admission to study under educational programs that do not have state accreditation – education confirmed by documents on education specified in subparagraph 1 of this paragraph, or by documents on education of the form established by the University, issued to persons who have successfully passed the final assessment.

7. Admission to study is carried out:

1. for places within the admission quotas for citizens' education at the expense of budgetary allocations of the federal budget, budgets of constituent entities of the Russian Federation, local budgets (hereinafter respectively – admission quotas, budgetary allocations):
a) for places within the following quotas:

– the admission quota for targeted training (hereinafter – the targeted quota);

The targeted quota at the expense of budgetary allocations of the federal budget is established with an indication of the information provided for by paragraph 35 of the Rules for establishing the admission quota for targeted training under higher education programs at the expense of budgetary allocations of the federal budget, approved by Decree of the Government of the Russian Federation No. 555 of 27 April 2024 "On targeted training under secondary vocational and higher education programs";

– the admission quota for obtaining higher education under bachelor's programs and specialist programs at the expense of budgetary allocations of the federal budget, budgets of constituent entities of the Russian Federation and local budgets, which is established by the University in the amount of at least 10% of the volume of admission quotas for each specialty or area of training (hereinafter – the special quota) (for bachelor's programs and specialist programs);

– a separate admission quota for obtaining higher education under bachelor's programs and specialist programs at the expense of budgetary allocations of the federal budget, budgets of constituent entities of the Russian Federation and local budgets, which is established by the University in the amount of at least 10% of the volume of admission quotas for each specialty or area of training (hereinafter – the separate quota) (for bachelor's programs and specialist programs);

b) for places within the admission quotas minus quotas (hereinafter – the main budget-funded places);

2. for places for study under education contracts concluded upon admission to study at the expense of individuals and (or) legal entities, and at the expense of the University's own funds (hereinafter respectively – fee-paying places, education contracts).

8. Upon admission to study for places within the admission quotas under bachelor's programs and specialist programs, quotas are allocated in the following sequence:

– the separate quota is allocated;

– the special quota is allocated within the remaining number of places (if any);

– the targeted quota is allocated within the remaining number of places (if any) (except for additional admission to study).

9. If the special quota is not allocated, the University announces admission to study for places within the special quota, indicating the number of places equal to zero. If, after the allocation of quotas, there are no main budget-funded places, the University announces admission to study for the main budget-funded places, indicating the number of places equal to zero.

10. As part of preparing for and conducting admission to study, the University:

– posts information on admission to study on its official website in the information and telecommunications network "Internet" at: https://inggu.ru/ (hereinafter – the University's website);

– receives from applicants applications for admission to study and documents required for admission and attached to the application for admission to study (hereinafter respectively – receipt of applications and documents, application for admission, documents required for admission);

– independently conducts entrance examinations under bachelor's programs and specialist programs in the cases established by paragraph 42 of the Admission Rules, and under master's programs (hereinafter – internal entrance examinations);

– carries out enrollment for study (hereinafter – enrollment).

11. Admission to study is carried out on a competitive basis. To conduct admission to study, the University establishes:

– the list of entrance examinations;

– for each entrance examination – the maximum number of points and the minimum number of points confirming successful completion of the entrance examination (hereinafter – the minimum number of points);

– the list of individual achievements of applicants (hereinafter – individual achievements) and the procedure for accounting for them;

– the procedure for granting special rights provided for by Parts 4 and 12 of Article 71 of Federal Law No. 273-FZ, and special advantage in accordance with paragraphs 60–65 of the Admission Rules (for bachelor's programs and specialist programs).

The sum of competitive points is calculated as the sum of points for entrance examinations and for individual achievements.

12. The University conducts a separate competition for each combination of conditions for admission to study (hereinafter respectively – competitive group, admission conditions):

1. by the University and its branch – in the following ways:

by the University as a whole, including all its branches;

by the University (excluding branches);

2. by forms of study:

full-time;

part-time (evening);

correspondence;

3. by the focus (profile) of educational programs (hereinafter – competitive profile) – in the following ways:

a) a single-profile competition within a specialty or area of training (hereinafter – single-profile competition):

– by the specialty or area of training as a whole;

b) a multi-profile competition across several specialties or areas of training within an enlarged group of specialties or areas of training (hereinafter respectively – multi-profile competition; specialties, areas of training included in the competition; enlarged group):

– across several specialties or areas of training as a whole;

– across several educational programs in various specialties or areas of training and (or) an educational program (programs) formed across several specialties or areas of training.

If admission quotas are established for specific specialties or areas of training, the University conducts single-profile competition(s) for these specialties or areas of training.

If admission quotas are established for an enlarged group, the University conducts single-profile competition(s) and (or) multi-profile competition(s) for the specialties or areas of training included in the enlarged group.

If there are no places within the admission quotas for specialties or areas of training, when admitting to fee-paying places for these specialties or areas of training, the University conducts single-profile competition(s) and (or) multi-profile competition(s);

3. by sources of financing of places:

a) for places within the admission quotas separately by types of budgets of the budget system of the Russian Federation:

– at the expense of budgetary allocations of the federal budget;

– at the expense of budgetary allocations of budgets of constituent entities of the Russian Federation;

– at the expense of budgetary allocations of local budgets;

b) for fee-paying places;

4. by types of places within the admission quotas:

– for places within the special quota;

– for places within the separate quota;

– for places within the targeted quota (if the targeted quota is detailed – separately for each detailed targeted quota);

– for the main budget-funded places.

13. For the same specialties or areas of training, the University conducts various single-profile and (or) multi-profile competitions for various competitive groups.

14. The University conducts a separate competition upon admission to fee-paying places under bachelor's programs and specialist programs for persons with professional education (hereinafter – a separate competition on the basis of professional education):

– for persons with secondary vocational education;

– for persons with higher education.

15. For competitions having the same competitive profile (except for the separate competition on the basis of professional education), the University establishes the same:

– list of entrance examinations;

– minimum number of points (except for the case specified in the seventh to ninth paragraphs of this paragraph);

– maximum number of points;

– list of general individual achievements and the procedure for accounting for them (in accordance with Chapter IV of the Admission Rules);

– procedure for granting special rights provided for by Parts 4 and 12 of Article 71 of Federal Law No. 273-FZ, and special advantage in accordance with paragraphs 60–64 of the Admission Rules (for bachelor's programs and specialist programs).

– The University or its founder may establish a different minimum number of points for competitions having the same competitive profile:

– for the organization (excluding branches) and for a branch, for various branches;

– for places within the admission quotas and fee-paying places (while the minimum number of points cannot differ by types of budgets of the budget system of the Russian Federation).

15 (1). The University may increase the minimum number of points established by the founder for all or individual competitions, taking into account the requirements specified in paragraph 15 of the Procedure.

16. For each competitive group, the University forms:

– lists of persons who have submitted an application for admission (hereinafter – lists of applicants);

– ranked lists of persons who have submitted an application for admission and the documents required for admission, and who have the necessary results of the unified state exam (USE) and (or) entrance examinations (hereinafter – competitive lists).

17. If there are unfilled places after the completion of enrollment, the organization conducts additional admission to study for the said places in accordance with Chapter XIV of the Admission Rules.

II. Number of organizations, specialties and (or) areas of training for simultaneous admission to study under bachelor's programs and specialist programs

18. The maximum number of organizations to which an applicant is entitled to apply simultaneously for study under bachelor's programs and specialist programs is 5.

19. The maximum number of specialties and (or) areas of training in which an applicant is entitled to simultaneously participate in the competition under bachelor's programs and specialist programs at the University:

is 5 if the number of specialties and (or) areas of training for which the University admits to study is greater than or equal to 5;

is equal to the number of specialties and (or) areas of training for which the University admits to study, if the said number is less than 5.

20. In each organization, an applicant simultaneously applies for study under various competitive groups within each specialty, each area of training.

21. An applicant's participation in a multi-profile competition (competitions) for a specific set of specialties and (or) areas of training is counted as participation in the competition for one specialty or area of training.

III. Entrance Examinations

22. Admission to study is carried out:

1) under bachelor's programs and specialist programs:

based on USE results assessed on a 100-point scale, which are recognized as results of entrance examinations, and (or) based on the results of internal entrance examinations;

without entrance examinations in accordance with Parts 4 and 12 of Article 71 of Federal Law No. 273-FZ – for places within the targeted quota, for places within the special quota, for the main budget-funded places, for fee-paying places (in accordance with paragraphs 60–64 of the Admission Rules);

without entrance examinations (except for additional entrance examinations of a creative and (or) professional orientation) – for places within the separate quota (in accordance with paragraph 66 of the Admission Rules);

under master's programs – based on the results of internal entrance examinations.

23. The University establishes the list of entrance examinations and their priority for ranking competitive lists (hereinafter – the priority of an examination for ranking, the priority of examinations for ranking).

24. The University establishes the list of entrance examinations upon admission to study under bachelor's programs and specialist programs:

for persons entering on the basis of secondary general education (hereinafter – applicants on the basis of secondary general education);

for persons entering on the basis of secondary vocational education of the relevant profile or higher education (hereinafter respectively – applicants on the basis of secondary vocational education of the relevant profile, applicants on the basis of higher education, together – applicants on the basis of professional education).

For persons who have completed their education in general education organizations of Belgorod, Kursk, Bryansk regions and the city of Sevastopol included in the list approved by Order of the Ministry of Education of Russia No. 146 of 5 March 2026, entrance examinations are conducted in the form of a unified interview. An additional entrance examination is included in the interview, except for an additional entrance examination of a creative orientation. An applicant has the right to use USE results instead of undergoing the interview.

25. For applicants on the basis of secondary general education, the University establishes:

entrance examinations in general education subjects for which the USE is conducted (hereinafter respectively – general education entrance examinations, subjects);

additional entrance examinations in the cases and in the manner provided for by this Chapter.

26. General education entrance examinations are established by the University in accordance with the list of entrance examinations upon admission to higher education educational programs – bachelor's programs and specialist programs, approved by the Ministry of Science and Higher Education of the Russian Federation (hereinafter – the federal list of entrance examinations).

The University establishes:

an entrance examination in the Russian language in accordance with Section 1 of the federal list of entrance examinations (hereinafter – entrance examination-1);

2 or 3 entrance examinations in accordance with Section 2 of the federal list of entrance examinations (hereinafter – entrance examination-2, entrance examination-3, entrance examination-4, together – profile general education examinations).

27. Profile general education examinations are established as follows:

entrance examination-2 – in one subject from among those specified in the subsection "entrance examination-2" of Section 2 of the federal list of entrance examinations;

entrance examination-3 – in one or several subjects from among those specified in the subsection "entrance examination-3, entrance examination-4" or the subsection "entrance examination-3" of Section 2 of the federal list of entrance examinations;

entrance examination-4 – in one or several subjects from among those specified in the subsection "entrance examination-3, entrance examination-4" of Section 2 of the federal list of entrance examinations. Entrance examination-4 is established by decision of the University.

28. The subject for which the University has established entrance examination-2 is not used by the University to establish entrance examination-3 and entrance examination-4.

29. If entrance examination-3 and (or) entrance examination-4 are established by the University in several subjects, these subjects are elective subjects for applicants (hereinafter – elective subjects).

Applicants:

use USE results (if available) in one or several subjects;

choose one or several subjects to take the internal entrance examination (if they have the corresponding right).

30. When determining a foreign language as one subject or an elective subject for a profile general education examination, the University establishes:

one or several foreign languages for which applicants may use USE results;

one or several foreign languages for which the University conducts an internal entrance examination (from among the languages for which applicants may use USE results).

If the University has established several languages, applicants use USE results and (or) take the internal entrance examination (if they have the corresponding right) in any language(s) from among those established.

31. If a USE result (internal entrance examination result) is counted for an applicant for entrance examination-3, the result in this subject cannot be counted for the applicant for entrance examination-4.

32. Additional entrance examinations for applicants on the basis of secondary general education are established as follows:

the University may establish:

an additional entrance examination of a profile orientation in one subject from among the subjects for which the University has established general education entrance examinations, if the

University has been granted the right to conduct additional entrance examinations of a profile orientation in accordance with Part 8 of Article 70 of Federal Law No. 273-FZ;

1–3 additional entrance examinations of a creative and (or) professional orientation in accordance with the list of additional entrance examinations of a creative and (or) professional orientation upon admission to bachelor's programs and specialist programs approved by the Ministry of Science and Higher Education of the Russian Federation, for specialties and areas of training included in the list of specialties and (or) areas of training for which, upon admission to study at the expense of budgetary allocations of the federal budget, budgets of constituent entities of the Russian Federation and local budgets under bachelor's programs and specialist programs, additional entrance examinations of a creative and (or) professional orientation may be conducted, approved by the Ministry of Science and Higher Education of the Russian Federation. These additional entrance examinations are established both for places within the admission quotas and for fee-paying places;

additional entrance examinations provided for by Part 9 of Article 70 of Federal Law No. 273-FZ;

the University establishes additional entrance examinations provided for by Part 10 of Article 70 of Federal Law No. 273-FZ.

Under bachelor's programs and specialist programs in the field of arts for which additional entrance examinations of a creative orientation are established, by decision of the University, preliminary auditions (tours) are conducted in the manner and within the time limits established by it.

33. When conducting one or several additional entrance examinations of a creative and (or) professional orientation, the University includes entrance examination-1 and entrance examination-2 in the list of entrance examinations, and also, by decision of the University, entrance examination-3 and (or) entrance examination-4.

34. For applicants on the basis of secondary vocational education of the relevant profile and for applicants on the basis of higher education, the organization independently determines the form and list of entrance examinations, while establishing:

entrance examinations on the basis of professional education in a number equal to the number of general education entrance examinations;

additional entrance examinations established for applicants on the basis of secondary general education.

For applicants on the basis of secondary vocational education of the relevant profile, the organization:

determines the correspondence of the focus (profile) of bachelor's programs and specialist programs to the focus (profile) of secondary vocational education and the content of entrance

examinations on the basis of professional education in accordance with the focus (profile) of bachelor's programs and specialist programs, except for the entrance examination in the Russian language;

includes the entrance examination in the Russian language in the list of entrance examinations on the basis of professional education. As the said entrance examination, a general education entrance examination in the Russian language is conducted;

may establish that the form of the entrance examination(s) on the basis of secondary vocational education is the USE, and not conduct an internal entrance examination(s) on the basis of secondary vocational education.

For applicants on the basis of higher education, the organization independently determines the content of internal entrance examinations and conducts them.

35. If, upon admission to fee-paying places, a separate competition is held on the basis of professional education, the University:

independently establishes no more than 4 entrance examinations for applicants on the basis of secondary vocational education of the relevant profile or higher education, determines the content and forms of these entrance examinations (internal entrance examinations and (or) USE results);

establishes additional entrance examinations in accordance with paragraph 32 of the Admission Rules.

36. The University conducts several internal entrance examinations on the basis of professional education that differ in content. The applicant chooses and takes one version of the entrance examination on the basis of professional education.

37. Upon admission to study under bachelor's programs and specialist programs, applicants (including applicants on the basis of professional education) from among the persons specified in this paragraph have the right to take internal entrance examinations in general education subjects (hereinafter – internal general education entrance examinations):

for places within the separate quota – persons entitled to admission to places within the separate quota based on USE results or entrance examinations in accordance with Part 5.2 of Article 71 of Federal Law No. 273-FZ (regardless of whether they participated in the USE and of the USE result);

for places within the special quota, the targeted quota, the main budget-funded places, and fee-paying places:

disabled persons (including disabled children) (regardless of whether they participated in the USE and of the USE result);

persons specified in Part 5.1 of Article 71 of Federal Law No. 273-FZ (regardless of whether they are applying for places within the separate quota, and regardless of whether they participated in the USE and of the USE result);

foreign citizens (in the subjects for which they do not have USE results obtained in the year of admission (hereinafter – the year of admission) and (or) within 4 years before the year of admission, except for USE results in basic-level mathematics);

citizens of the Russian Federation who have a document on secondary general education obtained in a foreign organization (in the subjects for which the citizens of the Russian Federation did not take the USE in the current calendar year).

38. Upon admission to study under bachelor's programs and specialist programs, citizens of the Republic of Belarus and citizens of the Russian Federation have the right to use the results of centralized testing and (or) centralized examination conducted in the Republic of Belarus (hereinafter – centralized testing or examination) passed by applicants in the current or previous calendar year, if the applicant did not take the USE in the corresponding general education subject in the year in which the centralized testing or examination was passed. The results of centralized testing or examination are recognized by the University as results of internal general education entrance examinations. The procedure for such recognition of the results of centralized testing or examination is established by the University.

39. Upon admission to study under bachelor's programs and specialist programs, an applicant who has the right to take internal entrance examinations may use the results of the said entrance examinations and (or) USE results. The highest of the USE results and (or) internal entrance examination results (including the results of centralized testing or examination) available to the applicant and constituting at least the minimum number of points is counted as the entrance examination result.

40. When conducting a multi-profile competition under bachelor's programs and specialist programs, the University:

establishes profile general education examinations in subjects corresponding to one or several specialties or areas of training included in the competition;

may establish additional entrance examinations if it has the right to conduct them for one or several specialties or areas of training included in the competition;

determines the content of entrance examinations on the basis of professional education in accordance with the focus (profile) of bachelor's programs and specialist programs for one or several specialties or areas of training included in the competition (except for the entrance examination in the Russian language). This paragraph does not apply to the separate competition on the basis of professional education.

41. The maximum number of points for each entrance examination under bachelor's programs and specialist programs is 100 points.

The minimum number of points for an internal general education entrance examination corresponds to the minimum number of USE points established by the Ministry of Science and Higher Education of the Russian Federation or by the University in accordance with Part 3 of Article 70 of Law No. 273. The minimum number of points for an additional entrance examination and an entrance examination on the basis of professional education is established by the University independently. (Appendix No. 1)

42. The University conducts the following internal entrance examinations:

internal general education entrance examinations (under bachelor's programs and specialist programs);

additional entrance examinations (under bachelor's programs and specialist programs);

entrance examinations on the basis of professional education (under bachelor's programs and specialist programs);

entrance examinations under master's programs. (Appendix No. 1)

43. The University conducts internal entrance examinations in person.

44. The results of internal entrance examinations are valid for admission to study for the academic year for which admission to study is carried out.

45. An applicant takes each internal entrance examination once. If elective subjects are established for a profile general education examination (under bachelor's programs and specialist programs), the applicant takes the internal entrance examination once for each chosen subject.

46. Internal entrance examinations are conducted in Russian, and also, by decision of the organization, in the language of a republic of the Russian Federation in whose territory the organization is located, and (or) in a foreign language.

Upon admission to master's programs with a foreign language (languages) of instruction, the University establishes that the internal entrance examination(s) is (are) conducted in Russian and in the foreign language(s) or only in the foreign language(s).

If the internal entrance examination is conducted in several languages, the applicant chooses one of the languages.

47. One internal entrance examination is conducted simultaneously for all applicants or at different times for different groups of applicants (including as such groups are formed from among persons who have submitted an application for admission).

For each applicant, one internal entrance examination is conducted per day. At the applicant's request, they may be given the opportunity to take several internal entrance examinations in one day.

48. Persons who have not passed an internal entrance examination for a valid reason (illness or other circumstances confirmed by documents) are allowed to take it in another group or on a reserve day.

49. The University establishes the schedule of internal entrance examinations, including one or several reserve days for taking entrance examinations by persons who have not passed the internal entrance examination(s) for a valid reason.

50. If an applicant violates the admission rules approved by the University during an internal entrance examination, authorized officials of the University draw up a report on the violation and on the applicant's failure to pass the entrance examination without a valid reason, and in the case of an in-person entrance examination, also remove the applicant from the place where the entrance examination is being held.

51. The results of an internal entrance examination are announced on the University's website within three working days after the day of the entrance examination, but no later than one day before the publication of competitive lists. In addition to the official website, the University announces these results in other ways determined by it.

52. An applicant has the right, on the day the results of an internal entrance examination are announced or during the next working day, to review the results of checking and evaluating their work performed during the entrance examination.

53. Based on the results of an internal entrance examination, an applicant has the right to file an appeal with the University regarding, in the applicant's opinion, a violation of the established procedure for conducting the entrance examination and (or) disagreement with the assessment received for the entrance examination results.

The University considers appeals filed by applicants. The rules for filing and considering appeals are established by the University.

IV. Accounting of Individual Achievements of Applicants

54. The accounting of individual achievements of applicants is carried out in the following ways:

1. The University awards points to the applicant, which are included in the total competitive score:

points for general individual achievements, the list of which is established by the organization in accordance with this chapter (by decision of the organization). When admitting to bachelor's degree programs and specialist degree programs, the number of points for general individual achievements shall not exceed 10 points;

points for targeted individual achievements, which are considered participation in career guidance activities conducted by the customer of targeted training (hereinafter referred to as career guidance activities), which are accounted for in accordance with paragraph 150 of the Admission Rules when admitting to places within the targeted quota in addition to points for

general individual achievements. The number of points for targeted individual achievements is 5 points;

In the case of equality of applicants according to the specified achievements, the list of such achievements may be supplemented during the admission period. The procedure for accounting for individual achievements taken into account when applicants have equal scores according to other ranking criteria in the competitive lists is established by the University independently.

V. Special Rights When Admitting to Bachelor's Degree Programs and Specialist Degree Programs

60. Applicants for admission to bachelor's degree programs and specialist degree programs are granted the following special rights:

1. to persons specified in Part 4 of Article 71 of Federal Law No. 273-FZ – the right to admission without entrance examinations. To persons specified in paragraph 2 of Part 4 of Article 71 of Federal Law No. 273-FZ, the specified right is granted for specialties and (or) fields of study in the field of physical culture and sports;

2. by decision of the University, to persons specified in Part 12 of Article 71 of Federal Law No. 273-FZ:

the right to admission without entrance examinations;

the right to be equated to persons who have scored the maximum number of USE points in a subject corresponding to the profile of the school olympiad, or to persons who have successfully passed additional entrance examinations of a profile, creative and (or) professional orientation provided for by Parts 7 and 8 of Article 70 of Federal Law No. 273-FZ. When granting the specified right, the applicant is established with the highest result of the entrance examination (examinations) – 100 points (hereinafter referred to as the right to 100 points).

The special rights specified in this paragraph may be granted to the same applicants.

61. To persons entitled to admission without entrance examinations in accordance with Part 4 of Article 71 of Federal Law No. 273-FZ, during the period of granting the specified right established by Part 4 of Article 71 of Federal Law No. 273-FZ, an advantage is granted by equating them to persons who have 100 points in a general education entrance examination or in an additional entrance examination (examinations) (hereinafter referred to as the special advantage).

62. When admitting within the target admission numbers, an applicant who has the right to admission without entrance examinations in accordance with Part 4 and (or) Part 12 of Article 71 of Federal Law No. 273-FZ uses the specified right as a single right to admission without entrance examinations. The specified right is used by the applicant to submit an application for admission to only one organization for only one educational program of the applicant's choice (regardless of the number of grounds giving the specified right). Within one organization and one educational program, the applicant may use the right to admission without entrance examinations for various competitive groups. If the competitive profile is established for a specialty (several specialties), a field (several fields) of study, several educational programs, the specified right is used by the applicant for the competitive profile as a whole.

63. For the admission of persons entitled to admission without entrance examinations in accordance with Part 4 of Article 71 of Federal Law No. 273-FZ, the University:
establishes the correspondence of competitive profiles (educational programs, specialties, fields of study, sets of specialties, fields of study) to the profiles of the final stage of the All-Russian School Olympiad, international olympiads specified in paragraph 1 of Part 4 of Article 71 of Federal Law No. 273-FZ (hereinafter referred to as international school olympiads), sports achievements specified in paragraph 2 of Part 4 of Article 71 of Federal Law No. 273-FZ (hereinafter referred to as sports achievements), for granting the right to admission without entrance examinations (Correspondence of fields of study and specialties to the olympiad profile – Appendix No. 2 to the Admission Rules);
establishes a special advantage for the subjects of general education entrance examinations established for them that coincide with the profiles of the final stage of the All-Russian School Olympiad, international school olympiads;
may establish a special advantage for other subjects and (or) additional entrance examinations that correspond to the profiles of the final stage of the All-Russian School Olympiad, international school olympiads, sports achievements.

64. For granting special rights in accordance with Part 12 of Article 71 of Federal Law No. 273-FZ, the University:

1. establishes the list of school olympiads based on the results of which special rights are granted, from among the olympiads included in the lists of school olympiads approved by the federal executive body responsible for developing and implementing state policy and legal regulation in the field of higher education, in agreement with the federal executive body responsible for developing and implementing state policy and legal regulation in the field of general education (List of School Olympiads – Appendix No. 2 to the Admission Rules);

2. for each school olympiad included in the list of school olympiads established by the University:
a) establishes the correspondence of competitive profiles (educational programs, specialties, fields of study, sets of specialties, fields of study) to one or several profiles of the olympiad for granting the right to admission without entrance examinations, or decides not to grant the right to admission without entrance examinations based on the results of the olympiad;
b) establishes one or several general education entrance examinations and (or) additional entrance examinations corresponding to one or several profiles of the olympiad for granting the right to 100 points, or decides that there are no entrance examinations corresponding to the profiles of the olympiad;

c) for granting each special right, establishes:
whether the special right is granted to winners or to winners and prize-winners of the olympiad; the results of the winner (prize-winner) of the school olympiad must be obtained for the 11th grade;
one or several subjects for which the applicant needs USE results or internal general education entrance examinations to confirm the special right (except for creative olympiads, olympiads in the field of physical culture and sports), and the number of USE points or internal general education entrance examination in these subjects that confirms the special right. The specified number of points shall be at least 75 points. The applicant must have the specified number of USE points or internal general education entrance examination in one subject (of the applicant's choice) from among the subjects established by the University.

65. For one ground giving the right to 100 points (special advantage), the applicant receives 100 points within one competition for one general education entrance examination (if the University establishes several entrance examinations corresponding to the olympiad (olympiad profile) – at the applicant's choice) or for one or several additional entrance examinations.
The applicant may simultaneously use several grounds for obtaining the right to 100 points (special advantage), including within one competition.
When participating in several competitions, the applicant may use the same ground for obtaining the right to 100 points (special advantage) for the same entrance examination (subject) or for various entrance examinations (subjects).

66. Applicants are granted the following special rights:

– the right to admission to places within the special quota in accordance with Part 5 of Article 71 of Federal Law No. 273-FZ;
– the right to admission to places within the separate quota in accordance with Parts 5.1 and 5.2 of Article 71 of Federal Law No. 273-FZ;

VIII. Enrollment, Submission and Withdrawal of Consent to Enrollment, Conclusion of an Education Contract, Withdrawal of Documents, Refusal of Enrollment

91. Enrollment is carried out according to the competitive lists in accordance with the enrollment priorities indicated in the application for admission, until the established number of places is filled.

92. For enrollment to places within the target admission numbers, the applicant submits consent to enrollment in a specific organization. Consent to enrollment is submitted in electronic form by placing an electronic mark of consent to enrollment on the EPGU or on paper by submitting an application for consent to enrollment to the University (in person). Submission of consent to enrollment in electronic form is carried out no more than once every 2 hours.

93. The University establishes the day of completion of submission of consent to enrollment to places within the target admission numbers. Submission of consent to enrollment is carried out starting from the day of the start of acceptance of applications for admission until the established time on the day of completion of submission of consent to enrollment (hereinafter referred to as the deadline for submission of consent to enrollment). Consent to enrollment applies to all competitive groups for places within the target admission numbers at the University for bachelor's degree programs and specialist degree programs or for master's degree programs.
If an applicant who has submitted consent to enrollment wishes to submit consent to enrollment in another organization, they must withdraw the submitted consent to enrollment.

94. For enrollment to paid places, the applicant concludes an education contract and also informs the University of the need for their enrollment in accordance with the education contract. The University establishes the day of completion of conclusion of education contracts (hereinafter referred to as the day of completion of conclusion of contracts). Conclusion of an education contract is carried out starting from the day of the start of acceptance of applications for admission until the day of completion of conclusion of contracts inclusive.

95. For enrollment, the University determines the highest priorities:
the main highest priority – the highest enrollment priority according to which the applicant passes the competition, determined for applicants included in the competitive list, regardless of the presence of consent to enrollment. The main highest priority is determined on the basis of all competitive lists in which the applicant passes the competition and is indicated in a specific competitive list;
the highest passing priority – the highest enrollment priority according to which the applicant passes the competition, determined for applicants who have submitted consent to enrollment. The highest passing priority is determined on the basis of all competitive lists in which the applicant passes the competition and is indicated in a specific competitive list.

96. An applicant is subject to enrollment to places within the target admission numbers in accordance with the highest passing priority if they pass the competition within the established number of places and, by the deadline for submission of consent to enrollment at the

University, there is consent to enrollment, provided that until the day of issuance of the enrollment order inclusive the applicant has not withdrawn the consent to enrollment.

97. An applicant is subject to enrollment to paid places if they pass the competition within the established number of places and, on the day of completion of conclusion of contracts at the University, there is a concluded education contract, provided that the applicant has informed the University of the need for their enrollment in accordance with the education contract. An applicant to paid places is enrolled in accordance with one or several enrollment priorities. Enrollment to paid places is carried out regardless of enrollment to places within the target admission numbers.

98. If an applicant submitted an application for admission via the EPGU, they may submit consent to enrollment via the EPGU, or in person, or through a postal operator. If an applicant submitted an application for admission in person or through a postal operator, they may submit consent to enrollment in person, or through a postal operator, or via the EPGU (if, when submitting the application for admission, they provided the University with the insurance number of an individual personal account and gave consent to the transfer of information to the EPGU).

99. When an applicant submits consent to enrollment, the University enters into the competitive list (before publication of the competitive list – into the list of applicants) information on the submission of consent to enrollment.
On the day of completion of submission of consent to enrollment, the organization, no later than 14:00 Moscow time, ensures that consents to enrollment submitted to the University are accounted for in the competitive list.

100. An applicant has the right at any stage of admission to withdraw consent to enrollment on the EPGU or by submitting an application to the University for withdrawal of consent to enrollment (hereinafter referred to as withdrawal of consent to enrollment). When an applicant withdraws consent to enrollment, the University enters into the competitive list (before publication of the competitive list – into the list of applicants) information on the withdrawal of consent to enrollment.

101. An applicant has the right at any stage of admission to withdraw the application for admission on the EPGU or by submitting an application to the University for withdrawal of the application for admission (hereinafter referred to as withdrawal of the application for admission).
When the application for admission is withdrawn, the University excludes the applicant from the lists of applicants, from the competitive lists and from the number of enrolled persons.

102. An applicant enrolled in education has the right to refuse enrollment without withdrawing consent to enrollment. Refusal of enrollment is carried out on the EPGU or by submitting an application to the University for refusal of enrollment.
In case of refusal of enrollment, the University excludes the applicant from the number of enrolled persons and makes the necessary changes to the competitive lists.

103. If an applicant who is enrolled in places within the target admission numbers wishes to withdraw consent to enrollment, they must refuse enrollment simultaneously with the withdrawal of consent to enrollment.

104. Before the expiration of the admission period for places within the target admission numbers (including additional admission) for specific competitive groups, the University makes changes to the competitive lists and lists of applicants and excludes the applicant from the number of enrolled persons in accordance with paragraphs 99–102 of the Admission Rules:
in the case of receipt of information from the EPGU or an application submitted to the University in person by the applicant no less than 2 hours before the end of the working day – within 2 hours after receipt of information from the EPGU or the application;
in the case of receipt of information from the EPGU or an application submitted to the University in person by the applicant less than 2 hours before the end of the working day –

within the first two hours of the next working day;
in the case of receipt of an application through a postal operator – no later than the next working day.
The actions specified in paragraphs 100–103 of the Procedure are not carried out on the day of issuance of enrollment orders;
when admitting to places within the target admission numbers for master's degree programs, when admitting to paid places for bachelor's degree programs, specialist degree programs, master's degree programs – on the day of issuance of enrollment orders.

105. After completion of admission to places within the target admission numbers (including additional admission) for specific competitive groups, the submitted documents in terms of their originals (if any) are returned to the applicant within one working day after the day of receipt by the University of the application for withdrawal of the application for admission. If it is impossible to return the specified originals, they remain in storage at the University.

106. Enrollment is formalized by order(s) of the University on enrollment at each stage. By decision of the University, enrollment orders are published on the University's website indicating the applicant's unique code.

107. Based on the enrollment results, the University generates information on enrollment for each competition indicating the applicant's unique code, the total competitive score, the number of points for entrance examinations and for individual achievements, and the basis for admission without entrance examinations. The specified information is posted on the University's website on the day of issuance of enrollment orders and must be available to users of the University's website for 6 months from the day of their issuance.

IX. Enrollment to Places within the Target Admission Numbers

108. Enrollment to places within the target admission numbers is carried out: for bachelor's degree programs and specialist degree programs – in 3 stages: the priority stage of enrollment, the main stage of enrollment and the additional stage of enrollment; for master's degree programs – in 2 stages: the main stage of enrollment and the additional stage of enrollment.

109. At each stage of enrollment, the University determines the main highest priority and the highest passing priority.

110. At the priority stage of enrollment for bachelor's degree programs and specialist degree programs:

1. enrollment is carried out:

a) to the main budget places without entrance examinations in accordance with Part 4 and (or) Part 12 of Article 71 of Federal Law No. 273-FZ;

b) to places within the special quota:
without entrance examinations in accordance with Part 4 and (or) Part 12 of Article 71 of Federal Law No. 273-FZ;
based on the results of the USE and (or) internal entrance examinations;

c) to places within the targeted quota:
without entrance examinations in accordance with Part 4 and (or) Part 12 of Article 71 of Federal Law No. 273-FZ;
based on the results of the USE and (or) internal entrance examinations;

d) to places within the separate quota:
without entrance examinations (except for additional entrance examinations of a creative and (or) professional orientation);
based on the results of the USE and (or) internal entrance examinations;

2. if the highest passing priority is the priority of the targeted quota, the applicant is enrolled in places within the targeted quota;

3. if the highest passing priority is the priority of other places:
an applicant who passes the competition for the main budget places without entrance examinations is enrolled in the specified places;
an applicant who does not participate in the competition (does not pass the competition) for the main budget places without entrance examinations and passes the competition for places within the separate quota is enrolled in places within the separate quota;
an applicant who does not participate in the competition (does not pass the competition) for the main budget places without entrance examinations and for places within the separate quota and passes the competition for places within the special quota is enrolled in places within the special quota.

111. At the main stage of enrollment for bachelor's degree programs and specialist degree programs, enrollment is carried out to the main budget places based on the results of the USE and (or) internal entrance examinations in accordance with the priority of other places.

112. At the additional stage of enrollment for bachelor's degree programs and specialist degree programs, enrollment is carried out to unfilled main budget places based on the results of the USE and (or) internal entrance examinations in accordance with the priority of other places.

113. When admitting to bachelor's degree programs and specialist degree programs, places within the special quota, separate quota, and targeted quota that are unfilled and (or) vacated after completion of the priority stage of enrollment are added to the main budget places.

114. Persons enrolled in places within the special quota and separate quota are excluded from the competitive lists for the main budget places for those admission conditions under which they were enrolled in places within the specified quotas.

115. If an applicant enrolled at the priority stage of enrollment for bachelor's degree programs and specialist degree programs wishes to participate in the main stage of enrollment at the University, they refuse enrollment carried out at the priority stage of enrollment. Persons who were enrolled at the priority stage of enrollment and refused enrollment before the deadline for submission of consent to enrollment at the main stage of enrollment are considered during enrollment at the main stage of enrollment. Persons who were enrolled at the priority stage of enrollment and did not refuse enrollment before the deadline for submission of consent to enrollment at the main stage of enrollment are not subject to enrollment at the main stage of enrollment.

116. If an applicant enrolled at the priority stage of enrollment for bachelor's degree programs and specialist degree programs wishes to participate in the main stage of enrollment in another organization, they, before the deadline for submission of consent to enrollment at the main stage of enrollment, refuse enrollment carried out at the priority stage of enrollment and withdraw consent to enrollment.

117. If an applicant enrolled at the priority stage of enrollment or the main stage of enrollment for bachelor's degree programs and specialist degree programs wishes to participate in the additional stage of enrollment at the University, they refuse enrollment carried out at the priority stage of enrollment or the main stage of enrollment. Persons who were enrolled at the priority stage of enrollment or the main stage of enrollment and refused enrollment before the deadline for submission of consent to enrollment at the additional stage of enrollment are considered during enrollment at the additional stage of enrollment. Persons who were enrolled at the priority stage of enrollment or the main stage of enrollment and did not refuse enrollment before the deadline for submission of consent to enrollment at the additional stage of enrollment are not subject to enrollment at the additional stage of enrollment.

118. If an applicant enrolled at the priority stage of enrollment or the main stage of enrollment for bachelor's degree programs and specialist degree programs wishes to participate in the additional stage of enrollment in another organization, they, before the deadline for

submission of consent to enrollment at the additional stage of enrollment, refuse enrollment carried out at the priority stage of enrollment or the main stage of enrollment and withdraw consent to enrollment.

119. At the main stage of enrollment for master's degree programs:

1. enrollment is carried out:
to places within the targeted quota;
to the main budget places;

2. if the highest passing priority is the priority of the targeted quota, the applicant is enrolled in places within the targeted quota;

3. if the highest passing priority is the priority of other places, the applicant is enrolled in the main budget places.

120. At the additional stage of enrollment for master's degree programs, enrollment is carried out to unfilled main budget places in accordance with the priority of other places.

121. When admitting to master's degree programs, places within the targeted quota that are unfilled are added to the main budget places.

122. If an applicant enrolled at the main stage of enrollment for master's degree programs wishes to participate in the additional stage of enrollment at the University, they refuse enrollment carried out at the main stage of enrollment. Persons who were enrolled at the main stage of enrollment and refused enrollment before the deadline for submission of consent to enrollment at the additional stage of enrollment are considered during enrollment at the additional stage of enrollment. Persons who were enrolled at the main stage of enrollment and did not refuse enrollment before the deadline for submission of consent to enrollment at the additional stage of enrollment are not subject to enrollment at the additional stage of enrollment.

123. If an applicant enrolled at the main stage of enrollment for master's degree programs wishes to participate in the additional stage of enrollment in another organization, they, before the deadline for submission of consent to enrollment at the additional stage of enrollment, refuse enrollment carried out at the main stage of enrollment and withdraw consent to enrollment.

IX(1). Redistribution of Places within the Target Admission Numbers

123(1). If the proposals of customers for places within the target admission numbers are given for a smaller number of places than the size of the targeted quota, the University may, no earlier than June 15 and no later than June 19, transfer places of the targeted quota within the number of places corresponding to the criteria specified in subparagraphs 1–3 and subparagraph "a" of paragraph 4 of paragraph 12 of the Procedure:
for bachelor's degree programs and specialist degree programs – to the separate quota;
for master's degree programs – to the main budget places.

123(2). The University carries out the following actions for the transfer of places within the number of places corresponding to the criteria specified in subparagraphs 1–3 and subparagraph "a" of paragraph 4 of paragraph 12 of the Procedure:

1. at the priority stage of enrollment for bachelor's degree programs and specialist degree programs, no earlier than completion of submission of consent to enrollment and no later than issuance of enrollment orders:
a) transfers excess places of the special quota and (or) targeted quota (if the number of applicants who submitted consent to enrollment in places of the special quota and (or) targeted quota is less than the number of the specified places) to the separate quota;
b) transfers excess places of the separate quota (if, after the transfer of places in accordance with subparagraph "a" of this subparagraph or in the absence of such transfer, the number of

applicants who submitted consent to enrollment in places of the separate quota is less than the number of the specified places):
in case of a shortage of places of the special quota – to the special quota;
in the absence of a shortage of places of the special quota – to the main budget places;

2. at the main stage of enrollment for master's degree programs, no earlier than completion of submission of consent to enrollment and no later than issuance of enrollment orders, transfers excess places of the targeted quota (if the number of applicants who submitted consent to enrollment in places of the targeted quota is less than the number of the specified places) to the main budget places.

XII. Features of Conducting Internal Entrance Examinations for Persons with Disabilities and Persons with Limited Health Capabilities

135. The University conducts additional admission to paid places for bachelor's degree programs, specialist degree programs, and master's degree programs for all forms of study only for persons admitted on the basis of a foreign state education document. The specified additional admission is conducted once and is completed no later than November 30, 2025.

135(1). Enrollment to paid places is carried out:
within the same deadlines for all admission conditions for bachelor's degree programs and specialist degree programs;
within the same deadlines for all admission conditions for master's degree programs.

136. When conducting internal entrance examinations for applicants from among persons with disabilities and persons with limited health capabilities (hereinafter referred to as applicants with limited health capabilities), the University ensures the creation of conditions taking into account the peculiarities of the psychophysical development of applicants, their individual capabilities and state of health (hereinafter referred to as individual characteristics). Applicants with limited health capabilities are provided with information on the procedure for conducting internal entrance examinations in a form accessible to them.

137. The duration of the internal entrance examination for applicants with limited health capabilities is increased by decision of the University, but by no more than 1.5 hours.

138. When conducting internal entrance examinations in person, the University ensures unobstructed access for applicants with limited health capabilities to classrooms, restrooms and other premises, as well as conditions for their stay in the specified premises (including the presence of ramps, lifts, handrails, widened doorways, elevators; in the absence of elevators, the classroom must be located on the first floor of the building).

In-person internal entrance examinations for applicants with limited health capabilities are conducted in a separate classroom.

The number of applicants with limited health capabilities in one classroom shall not exceed:

- when taking the internal entrance examination in written form – 12 persons;
- when taking the internal entrance examination in oral form – 6 persons.

The presence in the classroom during the internal entrance examination of a larger number of applicants with limited health capabilities is permitted, as well as the conduct of the internal entrance examination for applicants with limited health capabilities in one classroom together with other applicants, if this does not create difficulties for the applicants when taking the internal entrance examination.

The presence in the classroom during the internal entrance examination of an assistant from among the University's employees or engaged persons providing applicants with limited health capabilities with the necessary technical assistance taking into account their individual characteristics (to take a workplace, move around, read and complete the task, communicate with the persons conducting the entrance examination) is permitted.

139. Applicants with limited health capabilities may, in the process of taking the internal entrance examination, use technical means necessary for them in connection with their individual characteristics.

140. When conducting internal entrance examinations, the following additional requirements are ensured depending on the individual characteristics of applicants with limited health capabilities:

1. for the blind:

- tasks for completion at the entrance examination are drawn up in relief-dot Braille or in the form of an electronic document accessible via a computer with specialized software for the blind, or are read out by an assistant;
- written tasks are completed on paper in relief-dot Braille or on a computer with specialized software for the blind, or are dictated to an assistant;

- applicants are provided, if necessary, with a set of writing implements and paper for writing in relief-dot Braille, a computer with specialized software for the blind (when conducting entrance examinations in person);

2. for the visually impaired:

- individual uniform lighting of at least 300 lux is ensured (when conducting entrance examinations in person);
- applicants are provided, if necessary, with a magnifying device; the use of their own magnifying devices is also possible (when conducting entrance examinations in person);
- tasks for completion, as well as instructions on the procedure for conducting entrance examinations, are drawn up in enlarged font;

3. for the deaf and hard of hearing:

- the availability of collective-use sound-amplifying equipment is ensured; if necessary, applicants are provided with individual-use sound-amplifying equipment (when conducting entrance examinations in person);
- sign language interpretation services are provided;

4. for the deaf-blind, typhlosurdinterpretation services are provided (in addition to the requirements fulfilled respectively for the blind and the deaf);

5. for persons with severe speech impairments, the deaf, and the hard of hearing, entrance examinations conducted in oral form are conducted in written form (additional entrance examinations of a creative and (or) professional orientation, entrance examinations when admitting to master's degree programs – by decision of the University);

6. for persons with musculoskeletal disorders, disorders of motor functions of the upper limbs, or absence of upper limbs:

- written tasks are completed on a computer with specialized software or dictated to an assistant;
- entrance examinations conducted in written form are conducted in oral form (additional entrance examinations of a creative and (or) professional orientation, entrance examinations when admitting to master's degree programs – by decision of the University).

XIII. Features of Admission to Targeted Training

141. Admission to places within the targeted quota is carried out in accordance with the regulation on targeted training approved by the Government of the Russian Federation.

142. The University conducts admission to places within the targeted quota on the basis of applications for the conclusion of a targeted training contract submitted by applicants in accordance with proposals for the conclusion of targeted training contracts formed by federal state bodies, state authorities of constituent entities of the Russian Federation, local self-government bodies, and legal entities specified in Part 1 of Article 71.1 of Federal Law No. 273-FZ (hereinafter respectively referred to as applications, proposals, customers) and posted on the Unified Digital Platform in the Field of Employment and Labor Relations "Work in Russia" (hereinafter referred to as the digital platform "Work in Russia") or submitted by customers to the University (in the case of non-posting of proposals on the digital platform "Work in Russia").

The University assigns unique identification numbers to customers that submitted the specified proposals (in the case of non-posting of proposals on the digital platform "Work in Russia").

143. When admitting to places within the targeted quota:

1. the applicant submits an application for admission in accordance with the proposal;

2. the applicant indicates in the application for admission:
a) if the proposal in accordance with which the applicant applies for the specified places is posted on the digital platform "Work in Russia":
the attribute of posting the proposal on the digital platform "Work in Russia"; the proposal number generated on the digital platform "Work in Russia";
b) if the proposal in accordance with which the applicant applies for the specified places is not posted on the digital platform "Work in Russia":
the attribute of non-posting of the proposal on the digital platform "Work in Russia"; the proposal number generated by the customer;

3. if the applicant submits a new application, the previous application is considered withdrawn.

144. The University verifies the application for admission and the application (in the case where the application is submitted in paper form).

The University refuses the applicant admission to places within the targeted quota if:

- when submitting the application for admission in paper form, the application is absent;
- the proposal specified in the application for admission and (or) in the application is absent on the digital platform "Work in Russia" and has not been submitted by the customer to the organization, or does not correspond to the competitive group specified in the application for admission;
- the application submitted in paper form does not correspond to the standard application form approved by Resolution of the Government of the Russian Federation No. 555 dated April 27, 2024 "On Targeted Training under Educational Programs of Secondary Vocational and Higher Education";
- the application contains information on the applicant's non-compliance with the requirements for citizens concluding a targeted training contract;
- information has been received from the customer on the applicant's non-compliance with the requirements for citizens concluding a targeted training contract, in the cases established by the regulation on targeted training approved by Resolution of the Government of the Russian Federation No. 555 dated April 27, 2024 "On Targeted Training under Educational Programs of Secondary Vocational and Higher Education".

145. In the lists of applicants and in the competitive lists for places within the targeted quota, the attribute of posting (non-posting) of the proposal on the digital platform "Work in Russia", the proposal number, as well as the customer's identification number (in the case of non-posting of the proposal on the digital platform "Work in Russia") are indicated.

146. The University allocates the targeted quota by specialty and field of study in accordance with the quota for admission to targeted training, which is established according to the procedure for establishing the quota for admission to targeted training approved by the Government of the Russian Federation, the state authority of a constituent entity of the Russian Federation, or the local self-government body (hereinafter referred to as the procedure for establishing the quota).

147. When admitting to places within the targeted quota: an applicant who participated in career guidance activities (hereinafter referred to as a participant in career guidance activities) indicates in the application for admission that they are a participant in career guidance activities;

the University includes in the total competitive score points for targeted individual achievements if the applicant is present in the list of participants in career guidance activities submitted by the customer to the University before the day of the start of acceptance of applications for admission, indicating the insurance number of the individual personal account, signed by an authorized official on paper or in electronic form.

148. The University enrolls applicants to places within the targeted quota in an amount not exceeding the number of contracts specified by the customers in the proposals (for each proposal).

149. When admitting to places within the targeted quota in the interests of state security:

- admission is carried out if the University has information about the applicants received from the customers that formed the proposals in the interests of state security;
- information about the applicants is not indicated in the information posted by the University on the official website and (or) published in other ways, posted on the EPGU (including in the lists of applicants, information on the results of entrance examinations, competitive lists, information on enrollment);
- enrollment is formalized by a separate order (orders).

XIV. Features of Conducting Additional Admission

150. Additional admission is conducted:

- once for places within the target admission numbers (if the number of unfilled places within the target admission numbers for a specific competitive profile and a specific form of study at the University is less than 10 – by decision of the University);
- once for paid places by decision of the University – for persons admitted on the basis of a foreign state education document.

Additional admission for bachelor's degree programs and specialist degree programs is conducted independently of additional admission for master's degree programs.

During additional admission, no additional enrollment is conducted.

151. During additional admission, the University conducts acceptance of applications and documents, internal entrance examinations, and enrollment. By decision of the University, during additional admission, the results of internal entrance examinations taken by applicants at the University during the main admission period are taken into account.

152. Additional admission to places within the target admission numbers is conducted:

- to places within the special quota (for bachelor's degree programs and specialist degree programs);
- to places within the separate quota (for bachelor's degree programs and specialist degree programs);
- to the main budget places.

When conducting additional admission to places within the target admission numbers, the University, before the start of acceptance of applications and documents, redistributes places within the target admission numbers within the enlarged group. The specified redistribution is carried out:

- only between specialties, fields of study, educational programs (profiles) for which admission to places within the target admission numbers was announced;

- without transferring places between forms of study.

153. When conducting additional admission for bachelor's degree programs and specialist degree programs:

1. within the target admission numbers:

- the special quota and the separate quota are allocated from the volume of the target admission numbers announced for additional admission: the special quota – in the amount of at least 10%, the separate quota – in the amount of at least 10%;
- an applicant who has the right to admission without entrance examinations in accordance with Part 4 and (or) Part 12 of Article 71 of Federal Law No. 273-FZ (for bachelor's degree programs and specialist degree programs) uses the specified right when participating in additional admission regardless of the use of this right when participating in the main admission;

2. the number of organizations for simultaneous admission includes organizations in which the applicant participates in additional admission and organizations in which they participate in the main admission to paid places during this period;

3. the number of specialties and (or) fields of study for simultaneous admission includes specialties and (or) fields of study for which the applicant participates in additional admission and specialties and (or) fields for which they participate in the main admission to paid places during this period.

XV. Features of Admission of Foreign Citizens and Stateless Persons

154. Foreign citizens and stateless persons have the right to receive higher education at the expense of budgetary allocations in accordance with international treaties of the Russian Federation, federal laws, or the quota for the education of foreign citizens and stateless persons established by the Government of the Russian Federation (hereinafter referred to as the quota for the education of foreign citizens), as well as at the expense of funds of individuals and legal entities in accordance with education contracts.

155. Admission within the quota for the education of foreign citizens is carried out in accordance with the referrals of the federal executive body responsible for developing state policy and legal regulation in the field of higher education. Enrollment within the quota for the education of foreign citizens is formalized by a separate order (orders) of the University.

156. Foreign citizens who are admitted on the basis of international treaties submit, in addition to the documents specified in paragraph 77 of the Admission Rules, documents confirming their classification as persons specified in the relevant international treaties.

157. Foreign citizens and stateless persons who are compatriots living abroad (hereinafter referred to as compatriots) submit, in addition to the documents specified in paragraph 77 of the Admission Rules, originals or copies of documents provided for by Article 17 of Federal Law No. 99-FZ dated May 24, 1999 "On the State Policy of the Russian Federation with Respect to Compatriots Abroad".

Compatriots who are not citizens of the Russian Federation are not subject to the special rights upon admission to state-accredited bachelor's degree programs and specialist degree programs granted to certain categories of citizens of the Russian Federation in accordance with Federal Law No. 273-FZ, except for the special right upon admission provided for by paragraph 1 of Part 4 of Article 71 of Federal Law No. 273-FZ, unless otherwise provided by an international treaty of the Russian Federation.

158. When submitting documents, a foreign citizen or stateless person submits, in accordance with subparagraph 1 of paragraph 77 of the Admission Rules, the original or a copy of the document identifying the person, citizenship, or the document identifying the foreign citizen in the Russian Federation or the stateless person in the Russian Federation in accordance with Article 10 of Federal Law No. 115-FZ dated July 25, 2002 "On the Legal Status of Foreign Citizens in the Russian Federation".

159. Admission of foreign citizens and stateless persons to educational programs containing information constituting a state secret is carried out within the quota for the education of foreign citizens in compliance with the requirements provided for by the legislation of the Russian Federation on state secrets.

160. When admitting to paid places for bachelor's degree programs and specialist degree programs, the University independently establishes the list of entrance examinations for foreign citizens and stateless persons (hereinafter referred to as entrance examinations for foreign citizens) and the minimum number of points for the specified entrance examinations.

If the number of entrance examinations for foreign citizens differs from the number of entrance examinations established in accordance with paragraphs 24, 34 and 35 of the Admission Rules, the University independently allocates the number of places for admission based on the results of entrance examinations for foreign citizens and forms a separate competitive group for foreign citizens and stateless persons (hereinafter referred to as the competitive group for foreign citizens).

Foreign citizens and stateless persons may, at their choice, apply for admission based on the results of entrance examinations for foreign citizens or based on the results of entrance examinations established in accordance with paragraphs 24, 34 and 35 of the Admission Rules. This rule does not apply to general education subjects for which the foreign citizen has USE results obtained no earlier than 4 years before the year of admission.

If bachelor's degree programs and specialist degree programs are implemented in Russian from the first year of study, the list of entrance examinations for foreign citizens includes an entrance examination in Russian for foreign citizens.

The University has the right to take into account as the result of the entrance examination in Russian for foreign citizens a certificate of passing the state testing in Russian as a foreign language issued in accordance with the Procedure for Issuing a Certificate of Passing the State Testing in Russian as a Foreign Language and confirming proficiency in Russian at a level not lower than the first level of proficiency in Russian as a foreign language. The University independently establishes the procedure for accounting for the specified certificate.
